**"STRAWBERRY POINT"  
GUSTAVUS, ALASKA**

**Welcome to remote and friendly Gustavus Alaska!** A place where you can stand in one spot, look in all directions and see that we are surrounded with breathtaking mountains, pristine inland waters, glorious sandy beaches...and friendly characters who wave at everybody they meet. Wild strawberry fields offer the tiniest, sweetest morsels known to man. When ripe they are yours for the picking—but only if you get there first (the bears and just about everybody else loves them, too!) This has been true since the first wide-eyed settlers arrived on the shores of Salmon River in June of 1914 determined to homestead the lands. You, too, may arrive a total stranger here at *Strawberry Point*, and we hope to learn your story and to remember your name. It's our wish that when you leave this unspoiled, magical place you will leave with renewed hope in mankind, and exhilarated that such a one-of-a-kind place still exists on this earth.
